

Maintenance Choice® All Access: Expanded Delivery Benefit at No Cost to Your Members

Beginning June 18, 2018, Maintenance Choice All Access will be offering 1–2 day delivery. Through this plan benefit, your members will be able to receive their medications within 2 days¹ via United States Postal Service at no extra cost.

Continued Expansion of Delivery Convenience

The newly expanded Maintenance Choice continues to offer members the option to fill their 90-day prescriptions at CVS Pharmacy® or through CVS Caremark® Mail Service, and adds the convenience of On-Demand and 1–2 day delivery.

As with On Demand Delivery, 1–2 day delivery will offer members the ability to have their 30- or 90-day prescriptions delivered from any of the 9,800+ CVS Pharmacy locations (eventually including Target locations) later this summer.² Delivery will be made by USPS, in secure and tamper-evident packaging.³

We have made it simple for members to securely transfer their prescriptions covered by the plan benefit to CVS Pharmacy with our new easy prescription transfer tool. For more information, visit Caremark.com/MoveMyMeds.

We have created a client toolkit that will assist in the education of this new capability with your members. To receive your toolkit please contact your CVS Health Account Team.

87%

of consumers are willing to use technology to keep them from waiting in line⁴

83%

CVS Caremark® plan members live within the CVS Pharmacy 10-mile delivery radius⁴

If you have any questions, please contact your CVS Health Account Team.

1. Most prescriptions eligible. Delivery period does not include Sundays or USPS holidays. Order cut-off times apply. Different order cut-off times may apply at some locations. Select non-prescription items only available for delivery when ordering through CVS Pharmacy app. Non-prescription items not available from CVS in Target locations. Participating locations only. Delivery not available to every address. Coupons/promotions may not be available with delivery orders. Other restrictions apply. Subject to unanticipated factors, delivery time is anticipated to be within 1-2 days of order being placed. Ask pharmacy staff for details.

2. 1–2 day is not available in Manhattan.

3. Select health care-related general merchandise available for delivery later in summer 2018.
