

Welcome.

It's nice to meet you.

Like most people, you know the name of your health plan. But maybe you're not as familiar with the people who help you manage your pharmacy benefits.

That's us—CVS/caremark®. We help you fill, refill, understand and manage your prescriptions and their cost. With CVS/caremark prescription benefits you have access to great services, ongoing care and support, medical expertise and savings.

Access

- More than 7,800 convenient CVS/pharmacy® locations
- More than 68,000 network pharmacies nationwide. This includes independent pharmacies and chains, and more than 975 MinuteClinic® locations so you can access care closer to home

Expertise

- 3,000 pharmacists who put your health and safety first
- Each time you fill a prescription at CVS/pharmacy or by mail service, your personal drug profile is screened for possible drug interactions and allergic reactions. If a potential problem exists, we let you know
- More than 30 years of experience as the nation's leading and largest specialty pharmacy
- Care and support for members needing specialty medicine to manage the most complex conditions and treatments

Savings

- We are focused on lowering drug costs and providing savings solutions for you
- Change to home delivery and save on medicines you take routinely for diseases or chronic conditions
- Ask your doctor about generic options that can save you 30 to 80 percent off brand-name drugs*

Control

Register at **caremark.com** and you can access time and money-saving tools to:

- View prescription history and track your spending
- Compare drug costs to find lower-priced options
- Check drug interactions
- Track your refill status
- Learn about medicine
